3. The written notice of cancellation, if sent by mail, is effective when deposited in the mail properly addressed with proper postage.
4. The written notice of cancellation need not take any particular form and, however expressed, it is effective if it shows that the student no longer wishes to be bound by the enrollment agreement
5. If the enrollment Agreement is cancelled the school will refund the student any money he/she paid less a registration or administration fee not to exceed \$ 250.00, and less any deduction for equipment not returned in good condition, within 45 days after the notice of cancellation is received.
6. A withdrawal may be effectuated by the student's written notice or by the student's conduct, including but not limited to, a student's lack of attendance.

WITHDRAWAL FROM THE PROGRAM

You may withdraw from the school at any time after the cancellation period (described above) and receive a pro rata refund if you have completed 60% or less of the scheduled days in the current payment period in your program through the last day of attendance. The refund will be less a registration or administration fee not to exceed \$250.00, and less any deduction for equipment not returned in good condition, within 45 days of withdrawal. If the student has completed more than 60%

of the period of attendance for which the student was charged, the tuition is considered earned and the student will receive no refund.

For the purpose of determining a refund under this section, a student shall be deemed to have withdrawn from a program of instruction when any of the following occurs:

- The student notifies the institution of the student's withdrawal or as of the date of the student's withdrawal, whichever is later
- The institution terminates the student's enrollment for failure to maintain satisfactory progress; failure to abide by the rules and regulations of the institution; absences in excess of maximum set forth by the institution; and/or failure to meet financial obligations to the school.
- The student has failed to attend class for 3 days.

For the purpose of determining the amount of the refund, the date of the student's withdrawal shall be deemed the last date of recorded attendance. The amount owed equals the daily charges for the program (total institutional charge, minus non refundable fees, divided by the number of days in the program), multiplied by the number of days scheduled to attend, prior to withdrawal. If the student has completed more than 60% of the period of attendance for which the student was charged, the tuition is considered earned and the student will receive no refund.

If any portion of the tuition was paid from the proceeds of a loan or third party, the refund shall be sent to the lender, third party or, if appropriate, to the state or federal agency that guaranteed or reinsured the loan. Any amount of the refund in excess of the unpaid balance of the loan shall be first used to repay any student financial aid programs from which the student received benefits, in proportion to the amount of the benefits received, and any remaining amount shall be paid to the student. If the student has received federal student financial aid funds, the student is entitled to a refund of moneys not paid from federal student financial aid program funds.

LOANS

If the student obtains a loan to pay for an educational program, the student will have the full responsibility to repay the full amount plus any interest due, less the amount of any refund. If the student is eligible for a loan guaranteed by the federal or state government and the student defaults on the loan, both of the following may occur: The federal or state government may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance of the loan. The student may not be eligible for any other federal student financial assistance or other government assistance until the loan is repaid.

Refund will be paid within 30 days of cancellation of withdrawal.

TUITION AND FEES

All Tuition and fees are payable prior to commencement of classes unless other arrangements are made. You are responsible for your tuition and fees. A student enrolled in an unaccredited school is not eligible for federal financial aid programs. The school does not participate in federal or state financial aid programs. If a student receives a loan to pay for the educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If a student receives federal student financial aid funds, the student is entitled to a refund of the student moneys not paid from federal financial aid funds.
